OWNER'S AFFIDAVIT: I certify that all the foregoing information is accurate and that all work will be done in compliance with all applicable laws regulating construction and development, and the building is designed per code-mandated wind load design.

WARNING TO OWNER: Your failure to record a Notice of Commencement may result in your paying twice for improvements to your property. If you intend to obtain financing, consult with your lender or an attorney before recording your Notice of Commencement. The issuance of a building permit does not assure the building setbacks have been met or that the structure does not encroach on an easement. The owner and/or contractor have the sole responsibility of determining compliance with setbacks and non-encroachment of easements. If the County determines the structure does not meet applicable setbacks or improperly encroaches on an easement, the owner is responsible for moving the structure, restoring the easement to its original condition, or otherwise making the structure comply with County setbacks and other land use requirements.

Application is hereby made to obtain a permit to do the work and installations as indicated. By signing this application, I certify that no work or installation has commenced prior to the **activation** of a permit and that all work will be performed to meet the standards of all laws regulating construction and development in this jurisdiction.
